

# ANJALI SCHOLARSHIP PROGRAM

## JUNE 2025

In June 2025, a focused virtual session was conducted to enhance the academic capabilities of scholarship students.

The session, held on 21st June at 4:30 PM, covered the topic of Budget Analysis, a crucial area for students pursuing careers in finance, economics, or public administration. It was facilitated by Governing Body member Sambit Kumar Das, who guided students through the basics of budgeting, interpretation of financial data, and the importance of fiscal planning in personal and professional life. A total of fourteen students attended the session virtually and benefited from this in-depth, interactive learning experience.

This initiative reaffirms our objective of nurturing well-rounded individuals by supplementing financial support with essential skill-building opportunities.
